

52,500 KIDS

HAVE SMOKED THEIR FIRST CIGARETTE IN THE LAST TWO WEEKS.

Senators, every day you don't pass FDA regulation of tobacco products, 3,500 more kids — enough to fill 7 schools — will smoke their first cigarette. And 1,000 will become addicted smokers. It's time to tell Big Tobacco "no." No more marketing to our kids. No more fruit flavored cigarettes. Big Tobacco doesn't take a recess from marketing to children, so please don't take your next recess without protecting our kids first.

SENATORS, ENOUGH IS ENOUGH. PASS FDA REGULATION OF TOBACCO PRODUCTS NOW.
