

# Take the Steps to... Make Strides against Breast Cancer.

## Help Maryland Women Receive Lifesaving Screenings and Treatment!

You can take the necessary steps to help end breast cancer by increasing funding for the **Maryland Breast and Cervical Cancer Treatment Program**. Right now, women in Maryland are going without lifesaving breast cancer screening and treatment services they need because the Maryland Breast and Cervical Cancer Treatment Program is severely underfunded. This program has already saved the lives of thousands of women, but thousands more need to be served.

*Remember my message when making decisions about funding for cancer programs.*
