

2024 ACS CAN Volunteer Fundraising Impact Report

thank you

Thank you for helping us end cancer as we know it, for everyone.

The American Cancer Society Cancer Action Network is deeply grateful to you for your fundraising efforts. Because of your support, volunteer fundraising was a success, raising more than \$890,000 to support the American Cancer Society Cancer Action Network's vision to end cancer as we know it, for everyone.

The American Cancer Society Cancer Action Network (ACS CAN) makes cancer a top priority for policymakers at every level of government. ACS CAN engages volunteers across the country to make their voices heard to ensure that our cities, our states and our nation adopt evidence-based policies that improve the lives of people with cancer and their families. We believe everyone should have a fair and justice opportunity to prevent, detect, treat, and survive cancer.

Since 2001, as the American Cancer Society's nonprofit, nonpartisan advocacy affiliate, ACS CAN has successfully advocated for billions of dollars in cancer research funding, expanded access to quality affordable health care, and advanced proven tobacco control measures. We stand with our volunteers—people whose lives have been impacted by cancer—rallying to demand change.

We are so proud of the work we do and so appreciative of your leadership in our efforts. On behalf of everyone at ACS CAN, thank you for your generous support in helping us end cancer as we know it, for everyone.

With thanks,

Andrea Britcher

Fundraising Overview

\$834,226
raised through
Lights of Hope

863
Fundraisers

\$59,208
raised through
personal
fundraisers

2024 Lights of Hope Across America was a huge success. We were able to bring hope to many communities, including hosting our Hope Walk display at the Constitution Gardens in Washington, DC!

We celebrated survivorship and remembered those lost with over 80,000 Lights of Hope at hundreds of at-home community displays all across America, including about 10,000 at the Hope Walk.

Thanks to your tremendous generosity and commitment to Lights of Hope, we were able to raise over \$834,226 through personal Lights of Hope fundraisers and community and corporate sponsorships for ACS CAN!

Along with the incredible work we did with Lights of Hope, we had 83 people participate in personal fundraisers. These included, game nights, comedy shows, a pub crawls, a pickle ball tournament, a tennis tournament, Popcorn fundraisers, Cycling for Cancer Research and dine to donate events. Thanks to these unique fundraisers we were able to raise \$59,208

Our National Impact

Our vision

End cancer as we know it, for everyone.

Our mission

We advocate for evidence-based public policies to reduce the cancer burden for everyone. We engage our volunteers across the country to make their voices heard by policymakers at every level of government. We believe everyone should have a fair and just opportunity to prevent, detect, treat, and survive cancer.

Who We Are

For 23 years, the American Cancer Society Cancer Action Network (ACS CAN) has engaged volunteers across the country to use their voices to advocate for public policy change to save lives from cancer. In 2024, we again made tremendous strides in achieving impact toward our mission to advocate for evidence-based policies to reduce the cancer burden for everyone.

**29 million total lives touched.
And counting.**

\$4.8 billion in state appropriations

Protected and secured in state appropriations through advocacy to help fund cancer research and programs that reduce the tobacco burden and increase access to screenings.

Access to patient navigation

Successfully advocated for greater access to patient navigation by providing first-time reimbursement for the service in Medicare. The payment provision will improve quality and sustain accessibility of care for patients with chronic illnesses including cancer.

Expanded Coverage of Biomarker Testing

ACS CAN advocacy led to expanded insurance coverage of comprehensive biomarker testing in 20 states.

33%

decline in cancer death rates from 1991-2021

33.5 million

people benefited from expanded access to health insurance

62.3%

of the U.S. population protected from secondhand smoke exposure by local or statewide smoke-free laws.

More than 91% of our revenue is invested in delivering our mission.

320,000+
Online Action Takers

ACS CAN volunteers took more than 320,000 online actions in support of our legislative priorities.
