

NOW

is the time to prioritize the fight against cancer.

Congress:

TIME

is running out.

End cancer as we know it, for everyone.

Congress, when you prioritize the fight against cancer, you make time for survivors to live their lives to the fullest. As you finish work before the end of the year, support robust funding increases for cancer research and prevention *and* provide a pathway to coverage for multi-cancer early detection tests once FDA-approved and clinical benefit is shown.

Congress: **Support the highest possible increases for cancer research funding and pass the Medicare Multi-Cancer Early Detection Screening Coverage Act (H.R. 2407 and S. 2085).**

Cancer patients and their loved ones don't have time to wait.

Prioritizing the fight against cancer makes more of life's most important moments.
