

**November 5th**  
**Protect our Health Care!**

**VOTE**  
**NO!**  
**ON AMENDMENT F**

## **Amendment F is Poorly Written, Broad & Vague**

- This permanent constitutional amendment establishes new rules for how thousands of South Dakotans can access health care.
- It provides no specifics on what those rules will be — or how they will be enforced.
- Creates more government red tape around how health care works in South Dakota.

## **Thousands of South Dakotans Could Lose their Health Care**

- Hard-working South Dakotans are at risk of falling through the cracks and being kicked off their health care when they need it most.
- Moms and family caregivers could have to choose between caring for family or giving up their health care.
- Individuals with chronic diseases, like cancer, heart disease and diabetes, will have to fill out burdensome paperwork every month to prove their illness counts as a “disability.”
- One error, one mistake in a complicated government process could cost you your health care.

## **Vote NO on Amendment F!**

- **Vote No** to confusing changes to our constitution.
- **Vote No** to more government red tape in health care.
- **Vote No** to protect working moms and family caregivers.
